It Helps If Your Heart Remains Pure & True

[Verse 1]
Has there ever been a song you wanted to do?
You held it close and tried to see it through
The little words kept slipping from your hand
But something in your chest still made a stand

[Pre-Chorus]
It helps if your heart stays still
It helps if your mind says will
One small spark, one honest line
And suddenly it starts to shine

[Chorus]
It helps if your heart remains pure and true
(Pure and true)
It helps if your heart remains pure and true
(Pure and true)
Let the first word find you
Let it pull you through

[Verse 2]
Let Suno help you with words and a style
And turn that shaky start into a smile
You'll hear the shape of what you meant to say
Then watch the fear just fall away

[Pre-Chorus]
It helps if you don't force the flame
It helps if you call it by name
One small spark, one honest line
And suddenly it starts to shine

[Chorus]
It helps if your heart remains pure and true
(Pure and true)
It helps if your heart remains pure and true
(Pure and true)
Let the first word find you
Let it pull you through

[Bridge]
You don't need perfect
Just need real
A voice that knows
How truth can feel
From one soft note
To something wide
You bring the heart
We bring the ride

[Final Chorus]
It helps if your heart remains pure and true
(Pure and true)
It helps if your heart remains pure and true
(Pure and true)
Let Suno help you with words and a style
You will be amazed all the while
Pure and true
Pure and true
